

Mozambique

Offering a fresh perspective on contemporary outdoor living, designs in Mozambique seamlessly blend clean lines and a strong linear aesthetic. Each piece is meticulously crafted from Eclipse® synthetic teak in an exquisite taupe-gray finish. This sustainable, eco-friendly material not only features exceptional durability, but requires minimal maintenance

Eclipse® Synthetic Teak

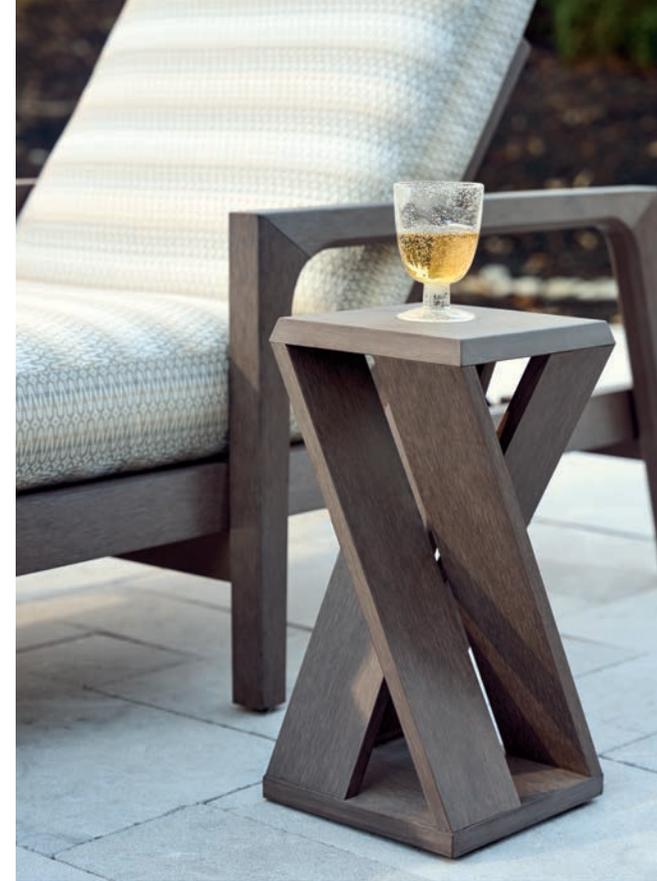

Eclipse® synthetic teak offers the texture and appearance of natural wood, while being eco-friendly and offering breakthrough durability with minimal maintenance. The product is made of a proprietary blend of polystyrene with no cellulose-based fibers, no BPA, and no PVC, making it the ideal material for designing and crafting the finest outdoor furniture. In addition to durability, the product's resistance to color change over time is one of its greatest benefits.

Care & Maintenance

Eclipse® synthetic teak is highly resistant to stains and requires very little routine maintenance. It should be cleaned as needed with a lukewarm soap solution and a sponge or brush. Scratches and scuffs in the surface can be easily repaired by rubbing in the direction of the grain with a Scotch-Brite® pad, available at any Home Improvement store. The product requires no staining or waterproofing treatments.

- Use heat-resistant pads under hot items to avoid heat damage to the surface
- Use coasters under glass items to avoid heat damage from refracted sunlight
- Rest cold beverages on coasters to avoid moisture rings
- Use water and dishwasher detergent solution to remove oil stains from surfaces
- Avoid placing sharp objects on furniture surfaces to avoid scratches
- The Eclipse® product does not require furniture covers, which can cause damage due to abrasion and the retention of heat and moisture
- If the furniture is not used for extended periods, we recommend that cushions be placed in a dry protected area
